HOSIERY TODAY.

Mountains of it in boxes and out. And the mass isn't half the wonder of the display. The last of our spring importation is from the custom house out of the cases and onto the counters-ready for your lookingfor your buying. Been coming-a case or so at a timefor days past, but we made up our minds not to say HOSIERY until the stock was complete, full, perfect. Therefore today we say HOSIERY in the broadest, strongest, grandest, fullest sense, and ask you to see what the best makers of the world, abroad and at home, have done in foot underwear for ladies, girls, boys and babies. More still. You shall get a hint of the largeness of our Hosiery business and judge if anywhere within your reach there's another of the kind nearly to great. You shall see the goods in bulk and in detail, thousands of dollars' worth. Fine, rich, exclusive things, and things not so fine

'Every-day" styles and special styles, together with the latest novelties. Kinds for every taste-but carefully avoiding in every quality, even the lowest, all makes that have not an established reputation for re-liability in wear. The "blacks" are the indelible sorts. The tans, the bronzes, the grays, the russets the cardinals are also unfadable, and will match per fectly the shoes to be worn this spring and summer— they were selected for that purpose. The delicate and more dainty tints are here in great abundance, and are just what they should be. In short, a Hossery stock as varied and extensive as ever shown under any stock as varied and extensive as ever shown under any one roof-directly from the makers-placed upon the counters and handed from maker to wearer with but our own moderate profit attached. A look at the large "F" street window will help you to guess what's inside, but only to guess. An hour before the heaped and crowded shelves and counters and you'll still wonder at the variety. That's our SPRING HOSIERY STORY-it has a moral which can be turned to good account. turned to good account.
